Global Competence Programs 2018-2023

Project: Supporting Queensland's Department of Education to develop a Global Competence Framework, and then supporting implementation of the framework in schools across the state.

Completed Scope:

- Development and delivery of 2 pilot programs, working with 40+ schools to develop the Global Competence Framework over 3 years.
- Development and delivery of 2 hybrid training packages to support the implementation of the Framework in schools across Queensland, specifically focussing on the Framework itself and on Dimension 3, translating these into tangible outcomes.
- Development of a suite of resources for the Department's Global Excellence Hub, including a podcast series and a 'Leading and managing change' toolkit for school leaders.
- Conference architecture and facilitation of the DEi Conference in 2022.
